NOTIFICATION.

Bangalore, the 3rd August, 1897.

No. 3176.—Under the provisions of section 174 of the Code of Criminal Procedure, 1882, as applied to the Civil and Military Station of Bangalore, the Resident is pleased to issue the following rules for the guidance of Police Officers in the conduct of investigations under that section. These rules supersede all previous rules on the subject:—

I.—When, from the information received by an officer in charge of a Police Station under section 174, he has reason to believe—

- (a) that the deceased person is a European or a Eurasian, or
- (b) that any person has been killed by the act or neglect of another, or has died under circumstances raising a reasonable suspicion that some other person has committed an offence, such officer—
- (i) shall, when giving or sending the immediate intimation to the nearest Magistrate empowered to hold inquests, as required by the said section, state clearly such particulars as he has been able to ascertain regarding the occurrence and the nationality of the deceased,
- (ii) and shall at the same time send a copy of the said intimation to the District Superintendent of Police, or in the absence of the District Superintendent of Police from the Civil and Military Station, to such officer as may be deputed by the District Superintendent to attend to his ordinary duties at Headquarters during such absence. He shall not proceed to discharge any of his further functions as described in the said section without receiving instructions to that effect from the District Superintendent or other officer aforesaid.

II.—If the District Superintendent or other officer aforesaid on receiving such intimation considers that there are sufficient grounds for believing that the occurrence therein reported falls under clause (a) or (b) of Rule I, he shall either himself discharge the further functions imposed on the officer in charge of a station under section 174, or shall depute some Police Officer of not lower rank than Inspector to discharge such functions.

Provided that when the deceased is a European or a Eurasian, the Police Officer deputed shall be himself a European or a Eurasian.

III.—If in any such case the District Superintendent or other officer aforesaid considers that, it is essential that an inquest should be held by a Magis-

trate, he shall, in addition to the procedure prescribed in Rule II, send a request to that effect to the Magistrate to whom the first intimation of the occurrence was sent, stating therein his reasons for making the request.

A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.

Reporter on Economic Products.

The first five volumes and Volume VI, Parts I, II, III & IV of the Dictionary are ready at the Office of the Superintendent of Government Printing, No. 8 Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs 45 in India, and 3 guineas in England (exclusive of the index, for which a separate charge will be made) : packing and postage, in India, 8 annas per volume ; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, Rs 6 and 8 shillings, respectively, will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral ; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names ; habitat or source ; history ; properties and uses (both chemical and industrial) ; trade statistics ; markets, etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given at cross-references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal 8vo pages ; Volume II embraces the letter C in 689 pages ; Volume III contains the letters D, E, F, and half of G ; Volume IV, latter half of G to middle of L ; and Volume V contains the latter half of L to end of O ; Vol. VI (which consists of four parts), Part I, contains letters P to R. The whole work completed in nine volumes (including Parts II to IV of Vol. VI), but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a glossary of the vernacular and European names of the plants, animals, and minerals of India, and, as such, will be a work of reference, which, it is hoped, may prove of considerable value.
